\* The purchase price of individual packets is based on the number of pages of written text included in each packet.

### **Packet Contents**

Each of our packets include:

- Instructions for the Home Health Aide
- Pre-Test
- 1½ – 7 Pages of Topic-Specific Reading Material \*
- Post-Test
- Answer Key
- Certificate

\* The exact number of pages of reading material for each packet, as well as a packet outline, is available on the KHCA website at [www.kshomecare.org](http://www.kshomecare.org).

### **Details**

Each of our packets was developed under the direction of a registered nurse. The actual number of inservice credits granted to participating aides will vary based on the individual and the agency. For this reason, the accompanying certificates are blank and should be completed by the supervising nurse as appropriate. We have attempted to make each portion of the self-study packet clear and concise, in order that an instructor/monitor is not needed, except to grade the pre- and post-tests. At the same time, this packet is also appropriate for use in a group setting with an instructor present. Purchased packets will be sent as a PDF attachment to e-mail unless otherwise requested.

### **Copyright Information**

Self-study packets within the HH Aide Inservice Library are copyrighted. Purchasing agencies are allowed to make unlimited copies for use within their agency. Sharing of materials with other agencies is prohibited.
