Program Abstract

These are exciting times for home care coders! CMS has confirmed that ICD-10-CM will begin on October 1, 2013. A sound basis in the fundamentals of ICD-9-CM will help ensure accurate coding and reimbursement now, and also lay the groundwork for successful implementation of ICD-10-CM. Ensure your outcomes and reimbursement are accurate with the revised 2012 PPS model. Strengthen your code expertise with common and complex home health scenarios with the 2012 updates. Then begin your correlation with the application of ICD-10-CM.

This program will provide a comprehensive overview of ICD-9-CM and the application in the current revised 2012 PPS model. Code Guidance updates and CMS clarifications will also be reviewed and applied to home health. Code challenges, subtleties and pitfalls will be addressed with multiple realistic home health scenarios. Ensure your staff have the expertise to meet the requirements of ICD-9-CM mandates in the revised PPS model. Interactive sessions will facilitate the application of tools, tips and strategies your peers have used to refine code practices and ensure acute quality outcomes and agency reimbursement.

Program Goals

- Review and apply current updated ICD-9-CM Code Guidelines;
- Detail required documentation to support diagnosis selection and sequencing;
- Utilize tools and tips to apply ICD-9-CM coding to common and complex home health scenarios;
- Discuss the correlation between ICD-9-CM and ICD-10-CM; and
- Apply ICD-10-CM to common home health scenarios.

Target Audience

This session is geared toward clinical staff and leadership who are involved in education and planning to enhance clinical assessment and documentation practices. Coders, OASIS and documentation specialists, compliance and quality staff, billing and education staff are encouraged to participate in this comprehensive program.

Program Abstract

Health Care Reform Initiatives are driving provider success with partnerships, new programs and revised 2012 PPS regulations. What provider outcomes most impact success with Health Care Reform Programs? Emerging community practices including transitional care, care coordination, self management and specialty programs continue to support outcome enhancement and program success. What emerging Best Practice processes and clinical competencies ensures accurate assessment, documentation and care management in our Brave New World? How does your agency ensure that clinicians have up to date skills, tools and competencies to meet the demands of home care in our revised PPS Era?

This program will provide an overview of the emerging Health Care Reform Initiatives for certified home health providers. Emerging integrated best practices in assessment, documentation and care management that enhance the delivery of home health care will be explored and applied by program participants. Interactive sessions will facilitate the application of tools and tips your peers have used to refine clinical competencies in the PPS Era.

Key Points

- A practical approach to integrate assessment and planning skills to enhance care management of home care patients.
- Take away tools to apply in your practice settings to enhance assessment, planning and communication practices.
- Interactive sessions to apply tips and tools and collaborate with other home care providers on care management skills and strategies that enhance critical provider outcomes.

Target Audience

This session is geared toward clinical staff and leadership who are involved in the education and planning to enhance clinical care and services. Directors, supervisors, educators and quality management staff are encouraged to participate in this comprehensive program.
