BKD, LLP

Tuesday, February 17, 2015

7:30 a.m.—Registration
8:30 a.m. to 4:00 p.m.—Class
(Includes lunch)

Location:
Crossroads Hospice Main Conference Room
14310 East 42nd Street South
Unit 600
Marketplace Shopping Center
Independence, MO 64055

About this conference:
Hospice Providers have been barraged with billing, payment cap, cost report, and other compliance changes over the last several years, and the changes keep coming. Most of these changes have a direct impact on financial operations. Come join us for the Midwest Regional Hospice Financial Summit to learn what you need to know about hospice financial performance for 2015 and beyond. Mark Sharp and Aaron Little have been training resources on these matters for both the National Association for Home Care & Hospice and the National Hospice & Palliative Care Organization, and now bring their expertise home to the Midwest for this important training opportunity.
Part 1—Medicare Hospice Cost Report & Cap Changes: Get a Proper Start  
Mark Sharp, CPA

The hospice Medicare cost report has undergone a major overhaul. The changes are significant and effective for fiscal years beginning on or after October 1, 2014. Hospice providers need to make sure their internal record keeping provides sufficient tracking for accurate and complete preparation of the new cost reports. Beginning with the cap year ended October 31, 2014, hospice providers must now file a payment cap settlement report with their Medicare administrative contractor. Understanding the deadline and requirements is important for hospice agencies to ensure there are no delays in Medicare cash flow.

Part 2—Hospice Revenue Cycle: Optimizing Compliance & Effectiveness  
M. Aaron Little, CPA

Hospice regulatory requirements have become increasingly complex in recent years and 2014 was no exception, with substantial changes occurring in Medicare billing requirements in April and October. As these requirements are expected to continue to change in the coming years, the Medicare hospice benefit continues to receive heightened scrutiny from CMS and program integrity contractors. It is critical that hospice providers take time now to examine the revenue cycle process to assess compliance with the latest requirements, evaluate potential threats to cash flow, and to improve positioning for expected future regulatory changes.

About our Speakers:

Mark Sharp, CPA has over 20 years of experience assisting home care and hospice providers with audits, strategic planning, accounting, cost reports, projections, operating budgets, corporate integrity, agency start-up and mergers and acquisitions. His services include Medicare and Medicaid consulting, development of budgeting systems and performing benchmarking and productivity studies.

M. Aaron Little, CPA has over 15 years experience with BKD and oversees the operations of BKD Health Care Revenue Cycle Services, a special team that manages the billing and revenue cycle operations for more than 100 home care, hospice and senior living organizations throughout the nation. A CPA and leading national home care and hospice consultant, he routinely performs revenue and accounts receivable recovery services, revenue cycle operations assessments, client training and related services.
